

“Face Symmetry:nobody's perfect” - Privacy Policy

I built the “Face Symmetry:nobody's perfect” (an Android app) as an Ad Supported app, as it uses admob (<https://policies.google.com/technologies/partner-sites?hl=en>) from Google. This APP is provided by at no cost and is intended for use as is. This page is used to inform visitors regarding my policies with the collection, use, and disclosure of Personal Information if anyone decided to use my App. If you choose to use my App, then you agree to the collection and use of information in relation to this policy. The Personal Information that I may collect is used for providing and improving the App. I will not use or share your information with anyone except as described in this Privacy Policy.

Information Collection and Use

I do not request you any personal information, nor any personal data is collected by me in any way.

All data collected shall remain on the phone unless data used by **third parties**.

Third Party Services

The app does use third party services (Admob advertising by Google <https://policies.google.com/technologies/partner-sites?hl=en>) that may collect information used to identify you. Their websites explain better how they, eventually, will use your data.

In addition to the Services we provide directly, we also use third party service providers (collectively referred to as “Third Party Services”) who operate their own Privacy Policies (listed below) and may also provide options to ‘opt-out’ of data collection.

All the Third Party Services we use we trust and deem their services important into our effective operation.

So you can find out more about the services we use, and in turn those you may use, whilst interacting with our Services, we are also providing information on what we use the services for and links to their associated Privacy Policies.

The Third Party Services we use:

Firebase Crashlytics — for the capture and collection of crash logs to help us identify bugs in our software. The Firebase Crashlytics Privacy Policy can be found at: <https://policies.google.com/privacy>

Google Analytics for Firebase – for the collection of anonymous analytical data to help us better understand how our customers and users use our Services. The Google Analytics for Firebase Privacy Policy can be found at: <https://policies.google.com/privacy>

Children's Privacy

I do not knowingly collect any information from children under 13. If you are a parent or guardian and you are aware that your child has provided me with personal information in some way, please contact me so that I will be able to do necessary actions.

Changes to This Privacy Policy

I may update our Privacy Policy from time to time. Thus, you are advised to review this page periodically for any changes. I will notify you of any changes by posting the new Privacy Policy on this page. These changes are effective immediately after they are posted on this page.
